## INDIANER INUIT: DAS NORDAMERIKA FILMFESTIVAL [4]

*Exclusivity, Personal Interaction, Competence, Educational Experience, International Flair, Future-Orientation, Investment, Potential and Perspectives*

All of these things and more await you at the 4th INDIANER INUIT: DAS NORDAMERIKA FILMFESTIVAL from January 19th to 22nd, 2012, in Stuttgart, Germany. Running under the motto **Between Tradition and Multimedia Life**, this is the only film festival of its kind in Europe. In the Volkshochschule Stuttgart (Adult Education Center), films written, directed by, or starring Indian-Inuit will be shown that accurately depict their unique culture and daily life. Captivating films that are both powerful and humorous will place the present and past in proper context; the genre 'Indian Film' will take on new and completely uncharted dimensions.
